Where a Webcast is available, interested parties can listen to a live audio Webcast of the Company's presentation on the Investor Relations section of Silicon Motion's website at www.siliconmotion.com. A replay of the Webcast will be available for a limited period of time following the event.

About Silicon Motion:

We are a fabless semiconductor company that designs, develops and markets high performance, low-power semiconductor solutions for the multimedia consumer electronics market. We have three major product lines: mobile storage, mobile communications, and multimedia SoCs. Our mobile storage business is composed of microcontrollers used in NAND flash memory storage products such as flash memory cards, USB flash drives, SSDs, and embedded flash applications. Our mobile communications business is composed primarily of mobile TV IC solutions and handset transceivers. Our multimedia SoCs business is composed primarily of embedded graphics processors.
