

Silicon Motion Showcases New Controller Solutions for PCIe NVMe SSDs at 2017 Flash Memory Summit

August 4, 2017

MILPITAS, Calif., Aug. 4, 2017 /PRNewswire/ -- Silicon Motion Technology Corporation (NasdaqGS: SIMO) ("Silicon Motion"), a global leader in NAND flash controllers for solid-state storage devices, today announced it will be presenting at the upcoming Flash Memory Summit in Santa Clara, CA from August 8th to 10th and will be showcasing an array of industry-leading turnkey controller solutions for high-performance, mainstream and DRAM-less PCIe NVMe SSDs. Since 2005, Silicon Motion has shipped more than five billion NAND Flash controllers – more than any other controller company in the world – and its leading position in the NAND controller market is illustrated by the array of high-performance solutions on display at the Flash Memory Summit, including controllers for embedded storage products, Flash cards and USB Flash drives.

The New PCIe NVMe solutions to be displayed at Silicon Motion's Flash Memory Summit booth #413 include:

PCIe Gen 3x4 NVMe 1.3 SSD Controller Solutions

- **High Performance Client and Enterprise: SM2262EN / SM2262**
- **Mainstream: SM2263**
- **Entry Level and Mobile: SM2263XT (DRAM-less)**
- **Industrial/Server/Automotive: BGA Ferri-SSDs**

Expandable Mobile Storage Controller Solutions

- **SD6.0 Controller – SM2705EN / SM2707EN**
- **USB3.1 Gen 1 Controller – SM3280 / SM3268 / SM3269**

Embedded Mobile Storage Controller Solutions

- **UFS 2.1 Controllers**

In addition, Silicon Motion representatives will present at Flash Memory Summit forums. For further information, please visit <http://www.siliconmotion.com/edm/FMS2017/FMS2017.html>

About Silicon Motion:

We are the global leader in supplying NAND flash controllers for solid state storage devices and the merchant leader in supplying SSD controllers. We have the broadest portfolio of controller technologies and solutions and have shipped over five billion NAND controllers, more than any other company in the world. Our controllers are widely used in embedded storage products such as SSDs and eMMCs which are found in smartphones, PCs and industrial and commercial applications. We also supply specialized high-performance enterprise and industrial SSD solutions. Our customers include most of the NAND flash vendors, storage device module makers and leading OEMs. For further information on Silicon Motion, visit us at www.siliconmotion.com.
