Business Highlights

- Embedded Storage¹ sales increased approximately 5% Q/Q and accounted for about 80% of total sales, similar to the previous quarter
- Client SSD controller sales decreased almost 10% Q/Q
- eMMC controller sales increased almost 5% Q/Q
- SSD solutions sales increased over 50% Q/Q
- Began shipping our SATA3 SSD controller to Intel for the world's first 64L 3D TLC NAND-based SSD, the Intel 545s

TAIPEI, Taiwan and MILPITAS, Calif., August 1, 2017 – Silicon Motion Technology Corporation (NasdaqGS: SIMO) ("Silicon Motion" or the "Company") today announced its financial results for the quarter ended June 30, 2017. For the second quarter, net sales increased 4% sequentially to \$132.7 million from \$127.3 million in the first quarter. Net income (GAAP) increased to \$24.0 million or \$0.67 per diluted ADS (GAAP) from a net income (GAAP) of \$23.5 million or \$0.65 per diluted ADS (GAAP) in the first quarter.

For the second quarter, net income (non-GAAP) increased to \$25.6 million or \$0.71 per diluted ADS (non-GAAP) from a net income (non-GAAP) of \$25.1 million or \$0.70 per diluted ADS (non-GAAP) in the first quarter.

¹ Embedded Storage comprises primarily eMMC and client SSD controllers and enterprise and industrial SSD solutions.

Second Quarter 2017 Review

“While NAND flash supply continued to improve modestly this quarter, supply remained very tight and was prioritized in favor of enterprise applications,” said Wallace Kou, President and CEO of Silicon Motion. “Separately, our eMMC NAND flash partner during the quarter was prebuilding inventory as part of their internal planning decisions. As a result, our SSD solutions and eMMC controllers grew this quarter, while our client SSD controllers declined.”

Returning Value to Shareholders

On October 24, 2016, the Board of Directors of the Company declared a \$0.80 per ADS annual dividend to be paid in quarterly installments of \$0.20 per ADS. On May 18, 2017, we paid \$7.1 million to shareholders as the third installment of our annual dividend.

In addition, today, the Company announced that its Board of Directors has authorized a new program for the Company to repurchase up to \$200 million of its ADS over a 12 month period.

Business Outlook

“We are now seeing material amounts of new 64L 3D NAND flash coming to market, with most still being directed towards the enterprise SSD market, which we believe will benefit our SSD solutions business,” said Wallace Kou, President and CEO of Silicon Motion. “Since NAND availability remains very tight, NAND pricing continues to be high, which will temporarily affect our SSD solutions and overall gross margins. Separately, based on what we are seeing from our customers’ rolling forecasts, we anticipate that our client SSD controller sales will rebound meaningfully in the fourth quarter. We believe our business will improve as NAND supply improvements accelerate over the next few quarters.”

For the third quarter of 2017, management expects:

Discussion of Non-GAAP Financial Measures

To supplement the Company's unaudited selected financial results calculated in accordance with U.S. Generally Accepted Accounting Principles ("GAAP"), the Company discloses certain non-GAAP financial measures that exclude stock-based compensation and other items, including gross profit (non-GAAP), operating expenses (non-GAAP), operating profit (non-GAAP), net income (non-GAAP), and earnings per diluted ADS (non-GAAP). These non-GAAP measures are not in accordance with or an alternative to GAAP, and may be different from non-GAAP measures used by other companies. We believe that these non-GAAP measures have limitations in that they do not reflect all the amounts associated with the Company's results of operations as determined in accordance with GAAP and that these measures should only be used to evaluate the Company's results of operations in conjunction with the corresponding GAAP measures. The presentation of this additional information is not meant to be considered in isolation or as a substitute for the most directly comparable GAAP measure. We compensate for the limitations of our non-GAAP financial measures by relying upon GAAP results to gain a complete picture of our performance.

Our non-GAAP financial measures are provided to enhance the user's overall understanding of our current financial performance and our prospects for the future. Specifically, we believe the non-GAAP results provide useful information to both management and investors as these non-GAAP results exclude certain expenses, gains and losses that we believe are not indicative of our core operating results and because it is consistent with the financial models and estimates published by many analysts who follow the Company. We use non-GAAP measures to evaluate the operating performance of our business, for comparison with our forecasts, and for benchmarking our performance externally against our competitors. Also, when evaluating potential acquisitions, we exclude the items described below from our consideration of the target's performance and valuation. Since we find these measures to be useful, we believe that our investors benefit from seeing the results from management's perspective in addition to seeing our GAAP results. We believe that these non-GAAP measures, when read in conjunction with the Company's GAAP financials, provide useful information to investors by offering:

- the ability to make more meaningful period-to-period comparisons of the Company's on-going operating results;
- the ability to better identify trends in the Company's underlying business and perform related trend analysis;
- a better understanding of how management plans and measures the Company's underlying business; and
- an easier way to compare the Company's operating results against analyst financial models and operating results of our competitors that supplement their GAAP results with non-GAAP financial measures.

The following are explanations of each of the adjustments that we incorporate into our non-GAAP measures, as well as the reasons for excluding each of these individual items in our reconciliation of these non-GAAP financial measures:

Stock-based compensation expense consists of non-cash charges related to the fair value of restricted stock units awarded to employees. The Company believes that the exclusion of these non-cash charges provides for more accurate comparisons of our operating results to our peer companies due to the varying available valuation methodologies, subjective assumptions and the variety of award types. In addition, the Company believes it is useful to investors to understand the specific impact of share-based compensation on its operating results.

Amortization of intangibles assets consists of non-cash charges that can be impacted by the timing and magnitude of our acquisitions. The Company considers its operating results without these charges when evaluating its ongoing performance and forecasting its earnings trends, and therefore excludes such charges when presenting non-GAAP financial measures. The Company believes that the assessment of its operations excluding these costs is relevant to its assessment of internal operations and comparisons to the performance of its competitors.

Litigation expenses consist of legal expenses relating to intellectual property disputes, commercial claims and other types of litigation. While litigation may arise in the ordinary course of our business, we nevertheless consider litigation to be an unusual and unplanned activity and therefore exclude this charge when presenting non-GAAP financial measures.

Foreign exchange gains and losses consist of translation gains and/or losses of non-US\$ denominated current assets and current liabilities, as well as certain other balance sheet items which result from the appreciation or depreciation of non-US\$ currencies against the US\$. We do not use financial instruments to manage the impact on our operations from changes in foreign exchange rates, and because our operations are subject to fluctuations in foreign exchange rates, we therefore exclude foreign exchange gains and losses when presenting non-GAAP financial measures.

About Silicon Motion:

We are the global leader in supplying NAND flash controllers for solid state storage devices and the merchant leader in supplying SSD controllers. We have the broadest portfolio of controller technologies and solutions and ship over 750 million NAND controllers annually, more than any other company in the world. Our controllers are widely used in embedded storage products such as SSDs and eMMCs which are found in smartphones, PCs and industrial and commercial applications. We also supply specialized high-performance hyperscale datacenter and industrial SSD solutions. Our customers include most of the NAND flash vendors, storage device module makers and leading OEMs. For further information on Silicon Motion, visit us at www.siliconmotion.com.

Forward-Looking Statements:

This press release contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including without limitation, statements about Silicon Motion's currently expected third quarter of 2017 and full year 2017 expectations of revenue, gross margin and operating expenses, all of which reflect management's estimates based on information available at this time of this press release. While Silicon Motion believes these estimates to be meaningful, these amounts could differ materially from actual reported amounts for the third quarter of 2017 and full year 2017. Forward-looking statements also include, without limitation, statements regarding trends in the multimedia consumer electronics market and our future results of operations, financial condition and business prospects. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expect," "intend," "plan," "anticipate," "believe," "estimate," "predict," "potential," "continue," or the negative of these terms or other comparable terminology. Although such statements are based on our own information and information from other sources we believe to be reliable, you should not place undue reliance on them. These statements involve risks and uncertainties, and actual market trends or our actual results of operations, financial condition or business prospects may differ materially from those expressed or implied in these forward looking statements for a variety of reasons. Potential risks and uncertainties include, but are not limited to the unpredictable volume and timing of customer orders, which are not fixed by contract but vary on a purchase order basis; the loss of one or more key customers or the significant reduction, postponement, rescheduling or cancellation of orders from these customers; general economic conditions or conditions in the semiconductor or consumer electronics markets; decreases in the overall average selling prices of our products; changes in the relative sales mix of our products; our ability to continue to successfully integrate our 2015 acquisition of Shannon Systems; changes in our cost of finished goods; the payment, or non-payment, of cash dividends in the future at the discretion of our board of directors; the effect, if any, on the price of our ADS as a result of the implementation of the announced share repurchase program; changes in our

cost of finished goods; the availability, pricing, and timeliness of delivery of other components and raw materials used in our customers' products; our customers' sales outlook, purchasing patterns, and inventory adjustments based on consumer demands and general economic conditions, its customers and consumers; our ability to successfully develop, introduce, and sell new or enhanced products in a timely manner; and the timing of new product announcements or introductions by us or by our competitors. For additional discussion of these risks and uncertainties and other factors, please see the documents we file from time to time with the Securities and Exchange Commission, including our Annual Report on Form 20-F filed on April 28, 2017, as amended on May 2, 2017. We assume no obligation to update any forward-looking statements, which apply only as of the date of this press release.
