TAIPEI, Taiwan and MILPITAS, Calif., May 3, 2024 – Silicon Motion Technology Corporation (NasdaqGS: SIMO) (“Silicon Motion”, the “Company” or “we”) today announced its financial results for the quarter ended March 31, 2024. For the first quarter of 2024, net sales (GAAP) decreased sequentially to \$189.3 million from \$202.4 million in the fourth quarter of 2023. Net income (GAAP) decreased to \$16.0 million, or \$0.48 per diluted American Depositary Share of the Company (“ADS”) (GAAP), from net income (GAAP) of \$21.1 million, or \$0.63 per diluted ADS (GAAP), in the fourth quarter of 2023.

For the first quarter of 2024, net income (non-GAAP) decreased to \$21.6 million, or \$0.64 per diluted ADS (non-GAAP), from net income (non-GAAP) of \$31.3 million, or \$0.93 per diluted ADS (non-GAAP), in the fourth quarter of 2023.

All financial numbers are in U.S. dollars unless otherwise noted.

First Quarter of 2024 Review

“Our business remained strong in the first quarter of 2024 as demand was stronger than expected and improving ASPs continued to drive better profitability,” said Wallace Kou, President and CEO of Silicon Motion. “Our client SSD revenue increased again for the fourth consecutive quarter as end-market demand stabilized and programs with our flash maker customers continue to scale. This was a strong

start to 2024, and we are confident that we have the right products and the right customers to continue to grow our business and profitability throughout this year.”

Business Outlook

“Our new programs with our flash maker customers are expected to continue to scale throughout this year as the move to increase outsourcing continues to build the foundation for long-term growth of our business,” said Wallace Kou, President and CEO of Silicon Motion. “Our highly differentiated controller solutions enable PC and smartphone OEMs to utilize high performance, higher density and lower cost solid state storage to enable cutting edge applications such as AI-at-the-edge. Based on our strong start to the year and our increasing backlog, we are increasing our full-year outlook. We expect our business will continue to improve steadily throughout 2024 as we continue to scale new SSD and eMMC+UFS controller programs that will also improve our ASPs and profitability steadily throughout this year.”

Discussion of Non-GAAP Financial Measures

To supplement the Company's unaudited selected financial results calculated in accordance with U.S. Generally Accepted Accounting Principles ("GAAP"), the Company discloses certain non-GAAP financial measures that exclude stock-based compensation and other items, including gross profit (non-GAAP), operating expenses (non-GAAP), operating income (non-GAAP), net income (non-GAAP), and earnings per diluted ADS (non-GAAP). These non-GAAP measures are not in accordance with or an alternative to GAAP and may be different from similarly-titled non-GAAP measures used by other companies. We believe that these non-GAAP measures have limitations in that they do not reflect all the amounts associated with the Company's results of operations as determined in accordance with GAAP and that these measures should only be used to evaluate the Company's results of operations in conjunction with the corresponding GAAP measures. The presentation of this additional information is not meant to be considered in isolation or as a substitute for the most directly comparable GAAP measure. We compensate for the limitations of our non-GAAP financial measures by relying upon GAAP results to gain a complete picture of our performance.

Our non-GAAP financial measures are provided to enhance the user's overall understanding of our current financial performance and our prospects for the future. Specifically, we believe the non-GAAP results provide useful information to both management and investors as these non-GAAP results exclude certain expenses, gains and losses that we believe are not indicative of our core operating results and because they are consistent with the financial models and estimates published by many analysts who follow the Company. We use non-GAAP measures to evaluate the operating performance of our business, for comparison with our forecasts, and for benchmarking our performance externally against our competitors. Also, when evaluating potential acquisitions, we exclude the items described below from our consideration of the target's performance and valuation. Since we find these measures to be useful, we believe that our investors benefit from seeing the results from management's perspective in addition to seeing our GAAP results. We believe that these non-GAAP measures, when read in conjunction with the Company's GAAP financials, provide useful information to investors by offering:

- the ability to make more meaningful period-to-period comparisons of the Company's on-going operating results;
- the ability to better identify trends in the Company's underlying business and perform related trend analysis;
- a better understanding of how management plans and measures the Company's underlying business; and
- an easier way to compare the Company's operating results against analyst financial models and operating results of our competitors that supplement their GAAP results with non-GAAP financial measures.

The following are explanations of each of the adjustments that we incorporate into our non-GAAP measures, as well as the reasons for excluding each of these individual items in our reconciliation of these non-GAAP financial measures:

Stock-based compensation expense consists of non-cash charges related to the fair value of restricted stock units awarded to employees. The Company believes that the exclusion of these non-cash charges provides for more accurate comparisons of our operating results to our peer companies due to the varying available valuation methodologies, subjective assumptions and the variety of award types. In addition, the Company believes it is useful to investors to understand the specific impact of share-based compensation on its operating results.

Restructuring charges relate to the restructuring of our underperforming product lines, principally the write-down of NAND flash, embedded DRAM and SSD inventory valuation and severance payments.

M&A transaction expenses consist of legal, financial advisory and other fees related to the Transaction.

Dispute related expenses consist of legal, consultant and other fees.

Loss from settlement of litigation relates to an expense accrued in connection with a settlement of a lawsuit.

Foreign exchange loss (gain) consists of translation gains and/or losses of non-US\$ denominated current assets and current liabilities, as well as certain other balance sheet items which result from the appreciation or depreciation of non-US\$ currencies against the US\$. We do not use financial instruments to manage the impact on our operations from changes in foreign exchange rates, and because our operations are subject to fluctuations in foreign exchange rates, we therefore exclude foreign exchange gains and losses when presenting non-GAAP financial measures.

Unrealized holding loss (gain) on investments relates to the net change in fair value of long-term investments.

About Silicon Motion:

We are the global leader in supplying NAND flash controllers for solid state storage devices. We supply more SSD controllers than any other company in the world for servers, PCs and other client devices and are the leading merchant supplier of eMMC and UFS embedded storage controllers used in smartphones, IoT devices and other applications. We also supply customized high-performance hyperscale data center and specialized industrial and automotive SSD solutions. Our customers include most of the NAND flash vendors, storage device module makers and leading OEMs. For further information on Silicon Motion, visit us at www.siliconmotion.com.
